## **PRESS RELEASE / COMMUNIQUE**

### **INTERNATIONAL POLICE ASSOCIATION HAND IN HAND WITH THE CONSORTIUM FOR STREET CHILDREN**

**One "click" to change the world? Believe in it and do it!**

For millions of children around the world, the street is a daily reality! To grow up in such conditions, to struggle for life not knowing what tomorrow will provide or under which bridge to sleep is not what we want for any child!

In 2011 the Consortium for Street Children (CSC) established 12 April as "International Day for Street Children". Furthermore, they initiated a petition in order to appeal to the UN to officially recognise and adopt this Day for Street Children. This will enable our politicians and governments to take concrete measures in order to help these children.

The International Police Association, the largest police association in the world with over 400,000 members, strongly supports the action of the Consortium for Street Children.

We believe that we can help. Let's unite our efforts and join together in a chain of solidarity to awaken public awareness. **Please use and display the attached flyer** and get your relatives, friends, colleagues – in fact everyone - to be part of this initiative.

**Sign CSC's petition** at [www.streetchildrenday.org](http://www.streetchildrenday.org) ! It will take you less time than sending an SMS!

*"You have to be the change you want to see in the world" Gandhi.*

Be with us! Yours in friendship.
