 #DemandADay  
#HomeStreetHome

Around the world there are countless children who call the streets their home. We want the UN to recognise a day for them. Join us and Demand a Day at [streetchildrenday.org](http://streetchildrenday.org)

## For millions of children around the world, the street is a daily reality!

Because children are our future, because we as police officers are daily striving to make public security a fact rather than a rule of law and because we want to believe that this world has the power to change its destiny, we strongly support the International Day for Street Children (12<sup>th</sup> April), established in 2011 by the Consortium

for Street Children. None of us would like to see their child growing up in the streets, struggling for life, not knowing what tomorrow would provide or under which bridge to sleep. Therefore, let's unite our efforts and join together in a chain of solidarity to awaken public awareness.

**International Police Association – hand in hand with the Consortium for Street Children**

The International Police Association appeals to the UN and asks them to adopt the International Day for Street Children.
