INFO - COPS 2018 TRAINING C-TERRORISM

General

The COPS 2018 training week is a four-day training program that takes on an international character with the support of IPA. We provide a range of workshops all linked to counter terrorism training.

The training is an all-in formula in which the organization takes responsibility to engage the participants in intensive workshop throughout the week, including a cultural excursion.

Networking across borders is key in the training. We provide participants with a safe environment for training and overnight stays.

Each workshop is attended by a professional camera team and images taken during the journey will be made available on a shared file.

Participants will be subject to following workshops:

- TECC control massive bleedings;
- ASP less lethal weapons;
- Tactical shooting close range , different weapons and calibers;
- MMA free fight ground and pound;
- Vehicle assault course /escape car;
- DEFENCE LAB knife fighting/knife defending.

The evening program will be completed with lectures about:

- C-ied;
- Terrorism behavior detection awareness;
- Drone attacks.

A cultural excursion is scheduled and includes a visit to the brewery HET ANKER in Mechelen to learn more about the brewing process of a.o. "Gouden Carolus" beer.

The first day the program starts with a welcome reception at which some of our commercial partners will showcase the newest equipment in the market. The last day the program properly concludes with a closing ceremony where each participant wins a prize and the best performing participant of each workshop is honored.

Besides, we are fortunate to organize the training in a breathtaking location in Belgium and the training is taught by internationally renowned top instructors, which results in a priceless experience.

Be quick to subscribe as the program is limited to 90 participants.

In case you require more information, don't hesitate to reach out to ronny.eyckmans@campusvesta.be.

More information on the infrastructure can be found via www.campusvesta.be.

Hopefully until June 2018!
